

Panasonic CF74 Docking Station Specifications

- **Constructed of aircraft grade aluminum**
 - It is strong, less prone to vibration and can be worked within end user vehicle repair shops if additions to equipment have to be made. The metal is blunted by keeping edges well rounded and using ¼" inch thick metal wherever impalement possibilities might exist
- **1 USB Port with Power**
 - **The Docking station will provide 1 USB port and power to the dock.**
- **Capture Key Locking System**
 - The key must be removed from the dock to insure the unit is airbag safe. This docking station is Airbag Safe certified (does not cut the airbag) and is also theft proof to a time of 5 minutes.
- Includes Panasonic authorized Lind Power Cord.
- The CF74 docking station measures 14.3 in. wide x 11.8 in. deep x 3.700 in. height.
- **Standard 1 year Manufactures Warrantee (excludes physical damage and occupant misuse).**
- **Note: Precision Mounting Technologies docking stations has passed all military 810EF milstandard testing.**
