

# CANADA ELD MANDATE

## MOUNTING SOLUTIONS FOR YOUR LOGISTIC FLEET

On June 12th 2021 the Canadian ELD mandate from The Government of Canada's Transport Canada goes into effect requiring truck drivers who follow hours of service (HOS) regulations to switch from paper logbooks to Electronic Logging Devices (ELD) within their vehicles. This ELD mandate yields several benefits, including improving road safety, minimizing driver fatigue and related crashes. PMT is able to offer drilled and non-drilled solutions to securely mount a variety of devices within the vehicle cab.
