

MAGNET MOUNT

Magnetic mount featuring a VESA 75 hole pattern with dual 1/4-20 threaded holes plus VESA 75 1/4-20 through holes for attaching docks and cradles, or 3/8" hole for attaching PMT and Gamber-Johnson tilt and clevis mounts, to ferromagnetic metal surfaces. Rubber coated feet protects mounting surfaces. 80lb of pull force to ensure reliable hold.

FEATURES

- Aircraft-grade aluminum construction
- Durable black epoxy powder coated finish
- Rubber coated magnets to protect mounting surfaces
- 80lb pull force neodymium magnets
- Dual VESA 75 hole mounting pattern with 1/4-20 threaded holes, centered and offset positions (docks and cradles)
- VESA 75 through holes for 1/4-20 screws and studs
- 15lb maximum load capacity in vertically mounted locations
- 3/8" bolt through hole mounting option (tilts and clevises)
- Nut and screw spacer kit included if needed
