

FORD F-SERIES 3RD BRAKE LIGHT MOUNTING PLATFORM

PMT's Ford F-Series 3rd Brake Light Mounting Platform provides a durable, no drill solution for mounting equipment to 2015+ Ford F-150 and 2017+ F-250 to F-550 trucks. CNC machined aluminum construction delivers long term durability and a precise fit behind the factory 3rd brake light. Integrated mounting patterns, including VESA 75, VESA 100, and AMPS, support a wide range of accessories.

FEATURES

- CNC machined aircraft grade aluminum construction to ensure a lightweight, ultra-rugged solution in all mission critical operations
- Finished in black epoxy powder coat to provide years of durable, easy maintenance performance
- No drilling required when mounting, preventing any damage during installation
- Matches OEM 3rd brake light dimensions for uncompromised fit
- Multiple mounting patterns, including VESA 75, VESA 100 & AMPS to support various equipment configurations
- Foam padding and rubber bump stops reduce risk of contact damage during operation
- Limited lifetime warranty
