

UNIVERSAL CONSOLE BRACKET KIT

PMT's Universal Console Bracket Kit mounts securely to the side of the transmission hump, providing stable support for a wide range of in vehicle setups. Compatible with the PMT flanged base plates, the bracket system creates a solid foundation for console boxes and accessory mounting without requiring a custom fit solution.

FEATURES

- CNC machined aircraft grade aluminum construction to ensure a lightweight, ultra-rugged solution in all mission critical operations
- Finished in black epoxy powder coat to provide years of durable, easy maintenance performance
- Legs attach to both 23" and 29" flanged base plate (90.C202.007 or 90.C202.008)
