

2025+ FORD POLICE INTERCEPTOR UTILITY TABLET DASH MOUNT

Dash mount for 2025+ Ford Police Interceptor Utility to mount a tablet docking station or cradle close to the vehicle dash with tilt and swivel adjustment. Offset towards passenger side allows access to vehicle dash controls. VESA 75 mounting interface. Requires PMT or Gamber-Johnson console for fitment.

Also featuring AMPS hole mounting patterns on both the driver and passenger sides allows for easy installation and integration of additional equipment (purchased separately) such as PMT's phone mounts with wireless charging capability attached to our Zirkona range of mounting solutions.

FEATURES

- Heads up display positioning
- Offset towards passenger side for increased driver safety, comfort and for easy access to dash controls
- Vehicle specific mounting
- CNC aircraft grade aluminum construction for rugged durability
- Ergonomic and low profile design for increased user safety and comfort
- Swivel and tilt adjustments for better visibility of mounted device
- Dual AMPS hole patterns for mounting Zirkona equipment or similar accessories such as cell phone holder, purchased separately
- Finished in black epoxy powder coat for maximum durability
- VESA 75 mounting interface
- Limited Lifetime Warranty
