

FORD F-SERIES AMPS DASH MOUNT ADAPTER – FRONT FACING

PMT's Front Facing Ford F-Series AMPS Dash Mount Adapter offers a low-profile, no drill mounting solution for securely integrating small devices at an optimal viewing height. Featuring AMPS hole patterns on both the driver and passenger sides, the adapter supports easy installation of accessories such as PMT phone mounts with wireless charging, paired with Zirkona mounting solutions. Mounts securely to the top plate of the 2021+ Ford F-150 AMPS Dash Mount (AS4.C235.014) using included sandwich plates. Constructed from lightweight, CNC machined aluminum to ensure stability while maximizing occupant comfort and safety.

FEATURES

- CNC machined aircraft grade aluminum construction to ensure a lightweight, ultra-rugged solution in all mission critical operations
- Finished in black epoxy powder coat to provide years of durable, easy maintenance performance
- Compact, low-profile, contoured design with line-of-sight positioning
- No drilling required when mounting, preventing any damage during installation
- AMPS hole patterns for mounting Zirkona equipment or similar accessories for simple integration of PMT phone mount solutions
- Supports devices weighing up to 25 lbs per mounting location
- Foam padding reduce risk of contact damage during operation
- Limited lifetime warranty
