

DOCK CABINET

The PMT Dock Cabinet provides secure, ergonomic storage for a wide range of applications. Manufactured from lightweight aircraft-grade aluminum and finished with black epoxy powder coat for a rugged, long-lasting performance. Features a friction hinged lid and key lock for added security. Designed with knockout holes to support cable routing and ventilation slots for airflow and heat dissipation.

FEATURES

- Aircraft-grade lightweight aluminum construction
- Finished in black epoxy powder coat to provide years of durable, easy maintenance performance
- Friction hinged lid for easy access which holds itself open allowing easier access during maintenance and general use
- Key lock to offer increased security
- Simple and fast installation, minimizing vehicle downtime
- Knockout holes for cable runs and management
- Ventilation slots for air circulation to aid temperature control
- Limited lifetime warranty
