Unique space-saving and ergonomic design of PMT CF-31 vehicle dock offers ease-of-use & access, ensures user safety, protection and provides device security

Toughbook 31 fully rugged laptop, PMT TrimLine CF-31 vehicle dock, mousetrap motion mount and PMT SightLine console in Ford Police Interceptor sedan

Feature	Benefit
Ergonomic, compact and small size	• Unique space-saving and ergonomic design occupies less cabin space; rounded corners and edges assures safety for airbag tolerance
Aircraft-grade aluminum construction	• Lightweight, high-strength aluminum for structural integrity • Finished in high quality black epoxy powder coat for durability • Aluminum offers corrosion resistance and vibration reduction
Dock mounting plate	• Mounting system flexibility and easy integration; fits existing or new installations
Captured key lock mechanism	• Forces end user to fully lock and secure laptop in-place before device operation, ensuring occupant safety and protection • Locks computer securely in-place to deter theft
Integrated genuine Panasonic Toughbook CF-31 printed circuit board and connector kit	• Manufacturer-supplied electronics for computer compatibility, reliability and consistent operation • Full port replication ensures reliable connectivity for communications and peripherals. • Available high gain RF pass-through: none, single, dual
Forward-facing ports and status indicators	• Easy access to ports for installation / cable management; at-a-glance view of dock status
Certifications	• MIL-STD 810G; SAE J1455. Certificates available upon request
