

EQUIPMENT STORAGE BOX

The Equipment Storage Box is a rugged and secure equipment mounting solution designed for mid to full-size SUVs. The box features ample mounting space for electronic equipment while the vent cutouts keep equipment from overheating. Equipment is secured inside of the box by the locking latches on the lid while the vertical orientation of the box keeps equipment easily accessible.

Weight and Dimensions

WEIGHT	HEIGHT	WIDTH	DEPTH
47.5 lbs. / 21.5 kg	38.0 in / 96.5 cm	18.0 in / 45.7 cm	6.0 in / 15.2 cm

Features

- Provides ample equipment mounting space and designed with a removable shelf for ease of equipment installation
- Locking latches on the removable lid keep equipment safe and secure
- Can be mounted directly to the cargo partition in the rear of the vehicle or between the rear seats and cargo partition
- Vent cutouts around the box provide air flow to keep equipment cool, avoiding overheating
- Six knockouts (2 inches in diameter) around the side of the box for convenient cable entry
- Brackets on the bottom of the box raise it off of the floor
